You will see the the Landing Page of the software. Here, we will be giving you a first introduction into the software:

- How to navigate.
- Where to get help.
- How to set your system up.

Take a minute to read through these - they will help you understand the way the ITONICS Cloud is structured.

A Open the Workspaces picker at the top right of the screen to easily change Workspaces. As you can see, the Workspace just created does not have a lock icon which means it is not locked down by us.

B The picker also links out to different places such as your Organization's settings, the settings of your personal settings and the list of different Organization's you are a part of.
