

The Future of ITONICS Cloud

What we are working on now, what will come next,
and where we are heading later.

Last Updated: July 7th, 2020

NOW

Planning Horizon: Less than 2 months

What we are looking into **now**. [1/2]

Element Configuration

CORE

PROFESSIONAL

Element Configuration will allow you to create new types of elements and configure them, including Radar segmentations, rating criteria, and other properties.

Priority 

Complexity 

Progress 

ITONICS Insights Beta

INSIGHTS

PROFESSIONAL

ITONICS Insights will be a new module that allows for powerful scouting and monitoring use cases. We are currently in the beta stage of development.

Priority 

Complexity 

Progress 

Commenting

EXPLORER

Collaboration is extremely important for innovation. You will soon be able to post comments on elements using references and mentions, and react to other users' comments.

Priority 

Complexity 

Progress 

What we are looking into **now**. [2/2]

Web Clipper

EXPLORER

The Web Clipper is a browser extension that allows you to easily clip inspirations and ideas from the web into your ITONICS Organization.

Priority 

Complexity 

Progress 

Improved Support

CORE

Our improved support side panel will allow you to peruse our knowledge base, watch help videos and submit requests straight from our software!

Priority 

Complexity 

Progress 

NEXT

Planning Horizon: 2-6 months

What we will pick up **next**. [1/2]

Content Sharing

EXPLORER

We want to make it easy for you to share content across Workspaces but also to receive up-to-date content from our expert team and be able to work with that content.

Priority

Complexity

Collections

EXPLORER

Organize and access content within your Workspace more easily using Collections.

Priority

Complexity

Notifications

CORE

We will introduce a first in-app system for notifying you about important changes to elements you are watching but also important updates to the software.

Priority

Complexity

What we will pick up **next**. [2/2]

Content Update

EXPLORER

We will update the Trend and Technology portfolio we provide for free in the ITONICS Showroom in order to keep you up-to-date on the most recent developments.

Priority

Complexity

ITONICS Insights

INSIGHTS

PROFESSIONAL

We will keep our focus on our big data solution ITONICS Insights, adding more data and data sources as well as visualizations and powerful integrations.

Priority

Complexity

Detail View Improvement

EXPLORER

The element detail view in Explorer is the centerpiece of our content management system; and we will substantially improve its organization and readability.

Priority

Complexity

LATER

Planning Horizon: 6-12 months

What is on the roadmap for **later**. [1/2]

ITONICS Campaigns

CAMPAIGNS

The ITONICS Campaigns module will allow you to create ideation campaigns in order to find those game-changing ideas or scouting campaigns to deep-dive into important topics.

Priority

Complexity

ITONICS Portfolio

PORTFOLIO

The ITONICS Portfolio module will allow you to take a strategic lens to your innovation portfolio and roadmap, using different visualizations as well as the ability to track and aggregate KPIs.

Priority

Complexity

Recommender System

CORE

We will be looking into how we can use machine learning to suggest content that is relevant, both in Explorer and in Insights. We will also suggest relations between elements and topics to make your life easier.

Priority

Complexity

What is on the roadmap for **later**. [2/2]

Improved Landing Page

SUITE

We will look into how we can enhance the landing page experience, making it less cluttered and focussing on content that is relevant to you in your Workspace.

Priority

Complexity

Permission Configuration

CORE

PROFESSIONAL

We aim to implement more powerful access control mechanisms, allowing you to configure roles, permissions but also introducing concepts like user groups.

Priority

Complexity

Single Sign-On

CORE

PROFESSIONAL

Single sign-on and its configuration will allow you to engage a larger number of colleagues at your organization, involving everyone in the innovation process.

Priority

Complexity
